

PARISH COUNCIL ACTION PLAN 2018-19

Parishes are the smallest areas of civil administration in England and provide the statutory tier of local government closest to the people. Parish Councils are an essential part of the structure of local democracy and have a vital role in acting on behalf of the communities they represent.

Parish Councils have a wide range of powers. They also have the power to raise money through taxation, known as the precept, which is the parish council's share of the council tax.

Pool-in-Wharfedale Parish Councillors have considered the aims of the council for the year ahead and produced a summarised Action Plan which details the key objectives it hopes to achieve during the year. This is a working document and subject to change.

The amenity budget covers these expenses. The Financial Plan is looking to identify funds for future investment in play equipment.

Consultants have been appointed and the Policy Initiatives Document, following wide consultation, will be transformed into the Neighbourhood Plan which the Group hope to complete in 2019.
